PROFILE

Final-year Multimedia & Creative Technology student with a passion for XR and interactive applications. I develop in Unity/C# and Vue.js, model in Blender and enjoy taking ideas to a working prototype. Through my internship, student jobs and role as a youth leader I am used to taking responsibility, both independently and in a team.

WORK EXPERIENCE

2023 – PRESENT

Administrative assistant (student job)

Taveirne NV

2023

Intern (2 weeks), followed by student employee (3 weeks)

Encima, Torhout – software company (custom web and app development) · internship in final year of secondary school

Store associate

Delhaize

EDUCATION

2023 – PRESENT

Professional Bachelor in Multimedia & Creative Technology

Howest University of Applied Sciences, Kortrijk

2017 – 2023

Secondary education – IT Management

PROJECTS

XR / Mixed Reality proof of concept

Unity · C# · OpenXR · Meta Quest 3 / 3S

- Wrote a research proposal and turned it into a working proof of concept.
- Built mixed reality interactions with Passthrough, OpenXR and the Meta XR Interaction SDK.

Web projects

Vue.js · JavaScript · HTML5/CSS3

- Web applications in Vue.js, structured using the repository pattern.
- Responsive, user-friendly interfaces in HTML5/CSS3.

VOLUNTEERING

2021 – PRESENT

Youth leader

KSA Driekoningen, Torhout (youth movement) · member for 3 years before (2018 – 2021)

- Planning and supervising activities, city games and camps for teenagers.
- Preparing scenarios, themes and logistics for events and day trips.
- Co-responsible for group dynamics and safety; currently in my 6th year as a leader.
